ABOUT ME

A third-year Computer Science student with experience in MERN stack development, capable of building full-stack web applications using React, Node.js, Express, and MongoDB. Interested in developing practical applications and strengthening problem-solving skills through Data Structures and Algorithms.

EDUCATION

DR NGP INSTITUTE OF TECHNOLOGY

B.E - Computer Science and Engineering
CGPA - 7.8
2026

VIKAS VIDHAYALA MATRIC HIGHER SEC SCHOOL

HSC - **86%**
2023 - 2024

VIKAS VIDHAYALA JUNIORS MATRICULATION SCHOOL

SSLC - **96%**
2021 - 2022

PROJECTS

SIGN LANGUAGE TO SPEECH CONVERSION SYSTEM

Creating a system to identify sign language gestures from video using Python and OpenCV, and convert them into readable text and spoken output.

CHATBOT FOR COLLEGE SUPPORT

Developed a chatbot application using the MERN stack (MongoDB, Express.js, React.js, Node.js) to assist students with college-related queries such as courses, schedules, and announcements. Implemented dynamic responses and a user-friendly interface to enhance accessibility.

AI CLASSROOM MOOD DETECTOR

Built a computer vision-based system to detect and classify student emotions from facial expressions. Identified engagement levels such as confused, bored, neutral, and interested to support better understanding of classroom interaction.

MERN THINKBOARD (MERN Stack)

Developed a memory board application that allows users to create, update, and delete notes. Implemented full CRUD operations using React.js, Node.js, Express.js, and MongoDB.

SKILLS

- Languages:** Java, Python, JavaScript, DSA (Basics)
- Web Development:** HTML, CSS, React.js, Node.js, Express.js
- Database Management:** MongoDB
- Tools:** GitHub, Postman
- Problem Solving:** Practiced using Java
- Platforms:** LeetCode

CERTIFICATION

- Full Stack Development with Python and Django - Pinesphere Solutions (36 hours)
- Basic HTML Certification - IIT Spoken Tutorial
- Hackathra AI & ML Hackathon Participant - SNS College of Technology (8 hours)
